Computer Science 81
JavaScript Programming
Summer 2025

Instructor: Vicky Tanya Seno
Department: Computer Science and Information Systems
Faculty Office: BUS 220J
Faculty Phone: (310) 434-4819
Email: seno_vicky@smc.edu

Department Website:
http://smc.edu/AcademicPrograms/CSIS
Office Hours: By Appointment (Contact me to Setup) Slack smccs81sum2025.slack.com or by Zoom Appointments

Catalog Description:

This introductory programming course teaches the fundamentals of computer programming with the JavaScript language, the standard for client-side Web programming. It offers a thorough treatment of programming concepts with programs that yield visible or audible results in Web pages and Web-based applications. It shows how to use Core and Client-Side JavaScript and the Document Object Model to build interactive, high-performance Web sites.

Certificate Information:

This course counts toward the SMC CSIS Certificates listed below:

- Computer Programming
- Database Applications
- Web Programmer

Build up your resume by completing one of the CSIS Certificate Programs. For more information on CSIS Certificates, please visit our department Web site at http://www.smc.edu/csis

Course Objectives:

Upon completion of this course, the student will be able to:

- Write algorithms to solve common client-side scripting problems.
- Design and implement client-side scripts using JavaScript to enhance and add interactivity to web pages.
- Use the Document Object Model (DOM) to manipulate the contents of web pages.
- Design and implement scripts to validate web forms.
- Write Ajax web apps.
- Write scripts using the jQuery library.
- Understand Object-Oriented Programming, especially the JavaScript prototype-based object model.
- Understand the basics of Functional Programming, including higher-order functions and closures.

Drop and Withdrawal Policy:

You will be dropped from this course if you DO NOT complete the following tasks by June 29, 2025:

1. **Log into Canvas (http://online.smc.edu) and review course material posted.**
2. **Complete Module 1 Assignment by June 29, 2025. For more details on Module 1 Assignment, log into Canvas (http://online.smc.edu). Select "SMC 2025 Sum - CS 81 (1240) – JavaScript Programming", then Click on Modules --> Module 1 -> Assignment.**

Although I retain the right to drop you given the above circumstances, it is nevertheless your responsibility as a student to withdraw from class if you do not intend to complete it. Students must NOT expect faculty to initiate withdrawal procedures for them. If you wish to drop this class, you may do so through Corsair Connect. Data regarding the withdrawal parameters for each class are provided within each student's individual Corsair Connect account.

General information regarding drop dates, withdrawals, and other enrollment matters may be found at the Admissions section of the SMC website:

http://www.smc.edu/EnrollmentDevelopment/Admissions/Pages/default.aspx

Student Learning Outcome

1 Use Core and Client-Side JavaScript and the Document Object Model to build interactive, high-performance Web sites.

As assessed by: lab assignments, tests, and team project.

2 Apply fundamental programming concepts to design and implement dynamic Web pages.

As assessed by: assignments, tests, and team project.

Course Format:

Course Completely Online

The course is presented using the SMC Canvas Leaning Management System:

- SMC Canvas Online (online.smc.edu):
  - All grades will be posted on Canvas.
  - Canvas also will have all Module Reading, Assignments, Project Details, Discussions and Quizzes.
  - For each of the six weeks of the course there are two Modules with additional guidance to the relevant resources for that week. i.e. reading, assignments, lecture slides, code examples, quiz information, etc.
  - This site will become available when the class begins. Access this site as follows:
    - Login to Canvas (http://online.smc.edu).
    - Click on Courses on the left panel
    - Select "SMC 2025 Sum - CS 81 (1240) – JavaScript Programming" to view course material
- SMC Canvas Online SmartPhone App
  - There is both an iOS and Android app to access your Canvas course material. Search for "Canvas" in your app store to download and stay contacted to the course.

IMPORTANT DATES: 6-Week Session	
6 WEEK SESSION BEGINS	Monday, June 23, 2025
Deadline to withdraw and receive REFUND.	Friday, June 27, 2025
Deadline to withdraw and AVOID "W".	Saturday, July 5, 2025
Deadline to withdraw and receive GUARANTEED "W"	Wednesday, July 23, 2025
6 Week Session Final Exam: Finals should happen at last class meeting this week.	Monday, July 28 – Aug 1, 2025
End of 6-Week Session.	Friday, Aug 1, 2025
Grades due from Faculty	Friday, Aug 8, 2025

Required Textbook

Required Textbook

Free Online 4th Edition: https://eloquentjavascript.net/

Printed 4th Edition 2024: Eloquent JavaScript: A Modern Introduction to Programming 4th Edition by Marijn Haverbeke. Publication Date: 2024 | No Starch Press| ISBN-13: 9781718504103

Note: This book provides the foundation for the first three weeks of the course. For Weeks 4-6, all reading materials on React will be provided through Canvas as OER material.

Grading Scale:

Percentage Distribution:
40% Quizzes
40% Weekly Assignments & Discussions
20% Final Project

Grading Scale:
A = 90 - 100%
B = 80 - 89%
C = 70 - 79%
D = 60 - 69%
F = 0 - 59%

Schedule Session Topic:

Week	Module	Dates	Topics
1	1	6/23/2025	Textbook: Ch1 Introduction to JavaScript Values, Types and Operators
1	2	6/23/2024	Textbook: Ch 2 Program Structure
2	3	6/30/2025	Textbook: Ch 3 Functions
2	4	6/30/2025	Textbook: Ch 4 Data Structures: Objects and Arrays
3	5	7/7/2025	Textbook: Ch 5 Higher Order Functions
3	6	7/7/2025	Textbook: Ch 13 JavaScript and the Browser & Cha 14 The Document Object Model
4	7	7/14/2025	OER: Introduction to React
4	8	7/14/2025	OER: React State & Props
5	9	7/21/2025	OER: React Events & Side Effects
5	10	7/21/2025	OER: Building Forms in React
6	11	7/28/2025	OER: Public APIs
6	12	7/28/2025	OER: Final Project

**Schedule is Subject to Change*

Campus Resources:

Assignments/Quiz
There will be weekly homework assignments and a weekly quizzes. The assignment will be due 6 days after the Module begins. The due date for each assignment and quiz is provided in both Canvas. Each assignment is worth 20 points. Points are deducted for failing to meet the requirements of the exercises and/or failing to follow closely all instructions.

Project
Design an innovative idea related to the course material. Develop dynamic behavior you would like to add to a webpage and apply JavaScript concepts and techniques to design and implement it. The total time spent on the project - including research, design, coding, testing, redesign, etc., must be at least 20 hours.

Tutoring
The CSIS Department offers free tutoring to all currently enrolled CSIS students. For more information, please see http://www.smc.edu/AcademicPrograms/CSIS/Pages/Tutoring.aspx.

Technology Resources
Students are responsible for their own computer, software, internet access and email account. For technical issues accessing eCollege, go to www.smconline.org and click on the Tech Requirements link.

Academic Honesty
The academic honesty policy of Santa Monica College will be strictly enforced. See Code of Academic Conduct in the *Student Planning Guide for Success*.

Incompletes
A grade of "Incomplete" may only be granted at the very end of the term, when 90% of the course work has been satisfactorily completed by the student, but an unforeseen event or illness prevents the student from completing the coursework. "Incomplete" grade situations are extremely rare, and are entirely at the discretion of the instructor, within the parameters set above.

Drops
Being Dropped due to lack of Substantive Participation
Substantive Participation is controlled by Administrative Regulation 4320. In our course, substantive participation shall be defined as follows:

- Students who do not successfully complete the first Module's assigned work may be dropped without notice
- Students who miss any two consecutive modules' assigned work may be dropped without notice

Nonetheless, it is a student's responsibility to drop/withdraw from class by the Admissions posted deadlines.

Campus Emotional Support for Students
Over the course of the semester you may face difficult circumstances beyond your control, such as strained relationships, increased anxiety, alcohol/drug problems, feeling down or depressed, or having difficulty concentrating. These challenges may create barriers to learning or may make it difficult for you to meet some of the course requirements. If you or someone you know is suffering these or other similarly difficult circumstances, please reach out for support. The staff and faculty of Santa Monica College want you to succeed academically and care about your wellbeing. You may contact the College's Center for Wellness and Wellbeing (LA 110, 310-434-4503), which provides short-term mental health services, community referrals, and a 24/7 emotional support line for students, 800-691-6003. Or, if the situation is an emergency, you may contact the SMC Police Department (310-434-4000 or the SMC LiveSafe app). Please contact me if you want to discuss which SMC service or support might be best for you.

Title IX
Santa Monica College and this academic department welcome students from all over the world with various backgrounds and life experiences. SMC is committed to fostering a safe and productive learning environment. SMC has zero tolerance for discrimination, and/or sexual harassment, which includes sexual misconduct such as, domestic and dating violence, sexual assault, sexual exploitation, and stalking. Any sexual violence or physical abuse, as defined by California law, whether committed by an employee, student, or member of the public, occurring on college-owned or controlled property, at college-sponsored or supervised functions, or related to or arising from college attendance or activity is a violation of District policies and regulations, and is subject to all applicable punishment, including criminal and/or civil prosecution and employee or student discipline procedures.

SMC Students assume an obligation to conduct themselves in a manner compatible with the college's function as an educational institution, which respects the rights of others to learn, and to acknowledge the academic freedom to teach and communicate in an environment that fosters learning and creativity. With that in mind, it is important to keep a respectful tone and attitude when communicating and interacting with your colleagues. You are the only you. No one else will have your sensibilities of what is funny or interesting. Part of being respectful is also realizing that someone else may be offended by something you think is "every day normal."
