

Program Pathway

Web Developer

The pathway below represents an efficient and effective course taking sequence for this program. Individual circumstances might require some changes to this pathway. It is **always** recommended that you **meet with an academic counselor** to develop a personalized educational plan.

The courses have been intentionally placed and should be prioritized in the order in which they appear. If you are unable to take all the courses in a semester, you should prioritize enrolling in the courses in the order below. Some courses have been noted as “Appropriate for Intercession” . Should you need (or want) to take classes in the summer and/or winter intersessions, the program recommends these courses as appropriate for the condensed schedule of the intersessions.

Some pathways combine a “Certificate of Achievement” and an “Associate Degree”. If you are pursuing only the Certificate of Achievement, you are only required to take the courses marked “Program Requirement” .

All pathways include at least one “Gateway Course”  which introduces you to the program and/or field of study and helps you decide if you want to continue with this Academic and Career Path.

Most Associate degrees (though not Associate Degrees for Transfer) require satisfying the SMC Global Citizenship requirement. If the Program Requirements do not include a “Global Citizenship course”, be sure to select a General Education course that also satisfies Global Citizenship.

 Gateway  Program Requirement  General Education  Intercession Option  Available Online

Semester 1

Semester Units: 15.0-17.0

CS 3	Introduction To Computer Systems	  	3.0
should be taken in the intercession PRIOR to first semester if needed as advisory for other CS courses			
CS 70	Network Fundamentals and Architecture	  	3.0
Elective Course			3.0-5.0
Cal-GETC Area 2 (Math) for transfer options recommended			
SMC GE Area 1A Course			3.0
COUNS 20	Student Success Seminar	 	3.0

Semester 2

Semester Units: 15.0

CS 60	Database Concepts and Applications	 	3.0
CS 87A	Python Programming	  	3.0
One Server Programming Course			3.0
CS 82	ASP.NET Programming in C#		3.0
OR			
CS 83	Server-Side Java Web Programming		3.0
OR			
CS 83R	Server-Side Ruby Web Programming		3.0
OR			
CS 85	PHP Programming		3.0
CS 80	Internet Programming	 	3.0
SMC GE Area 3 Course		 	3.0
ENGL C1001 (formerly ENGL 2) recommended for transfer options			

Semester 3

Semester Units: 15.0

One Security Course			3.0
CS 73A	Fundamentals of Computer Security		3.0
OR			
CS 73B	Computer Forensics Fundamentals		3.0
OR			
CS 73C	Cybersecurity and Ethical Hacking		3.0
OR			
CS 73L	Cybersecurity Literacy		3.0
OR			
CS 79D	Security in Amazon Web Services		3.0

CS 73A or CS 73L recommended

CS 81	Javascript Programming		3.0
CS 79A	Introduction to Cloud Computing		3.0
SMC GE Area 1B Course			3.0
COMM C1000 (formerly COM ST 11) or COM ST 21 recommended for transfer options			
Elective Course			3.0

Semester 4

Semester Units: 15.0

One Cloud Skills Course			3.0
CS 77A	Salesforce Administration Essentials		3.0
OR			
CS 77B	Salesforce Developer Essentials		3.0
OR			
CS 79B	Database Essentials in Amazon Web Services		3.0
OR			
CS 79C	Compute Engines in Amazon Web Services		3.0
OR			
CS 79E	Best Practices in Amazon Web Services		3.0
OR			
CS 79Y	Microsoft Azure Database Essentials		3.0
OR			
CS 79Z	Microsoft Azure Essentials		3.0
OR			
CIS 67	WordPress		3.0
SMC GE Area 4 Course			3.0
SMC GE Area 5 Course			3.0
SMC GE Area 6 Course			3.0
Elective Course			3.0

Total Units: 60.0-62.0
